THE GOLD STANDARD FOR GREEN SOLUTIONS

Our Products

Naked Planet Ltd was formed in 2016 and established on 9th May 2018. Based in Henley-on-Thames, Oxfordshire, our business was founded by three like-minded individuals harbouring a passion to usher innovative "Gold Standard" green solutions to market. Naked Planet hold honesty and integrity in the highest regard. These and other virtues are ingrained into every fibre of our company, business models and practices.

Our Full Product Range has been specifically selected to provide your business or organisation with the opportunity to replace elements of ranges you current use with more sustainable products that are fully compliant with the requirements of both UK & EU legislation banning "Single Use Plastics".

Moreover, by choosing to buy our products you are reducing your environmental impact on the natural world and bolstering your company's Environmental Social & Governance (ESG) credentials, something that will become more important as customers & investors, alike, consider a company's ESG score when choosing where to spend or place their money.

Finally, all products purchased from Naked Planet will be carbon offset plus an additional 5% making them "Carbon Positive". Additionally, 10% of the profits made on every purchase are deposited into our Naked Planet Foundation Fund proceeds from which are then used to finance environmental projects and causes that make a REAL DIFFERENCE in the fight to save our planet.
